

Summary Report

April 10, 2019 – May 19, 2019

TOTAL HOURS

6:43:19

BILLABLE HOURS

0:00:00

AMOUNT

—

PROJECT

● G5-50 ● G5-PO

DURATION

6:43:19

TIME ENTRY

- #38 A4.3.3 - A justification and rationale of the value provided for the guarantee in the SLA
- #36 A4.3.2 - The definition of the SLA document.
- #34 A4.3.1 - A screenshot of the SLA generated in iTop, and its association to the maintenance service as created in the iTop tool.
- A4.2.3
- A4.2.1
- A4.3.3
- #41 E4.1 - As a group, extend the technical report created as a result of A4.3, and analyze the issues of the previous sprints (L2 and L3). Such analysis should contain a table where for each issue you specify whether the SLO described in your SLA is met or not, and some final conclusions analyzing the global results.
- #35 A4.2.3 - Structure of the CMDB, including some examples of the identified Configurable Items

DURATION

3:00:00
